Who makes the decisions?

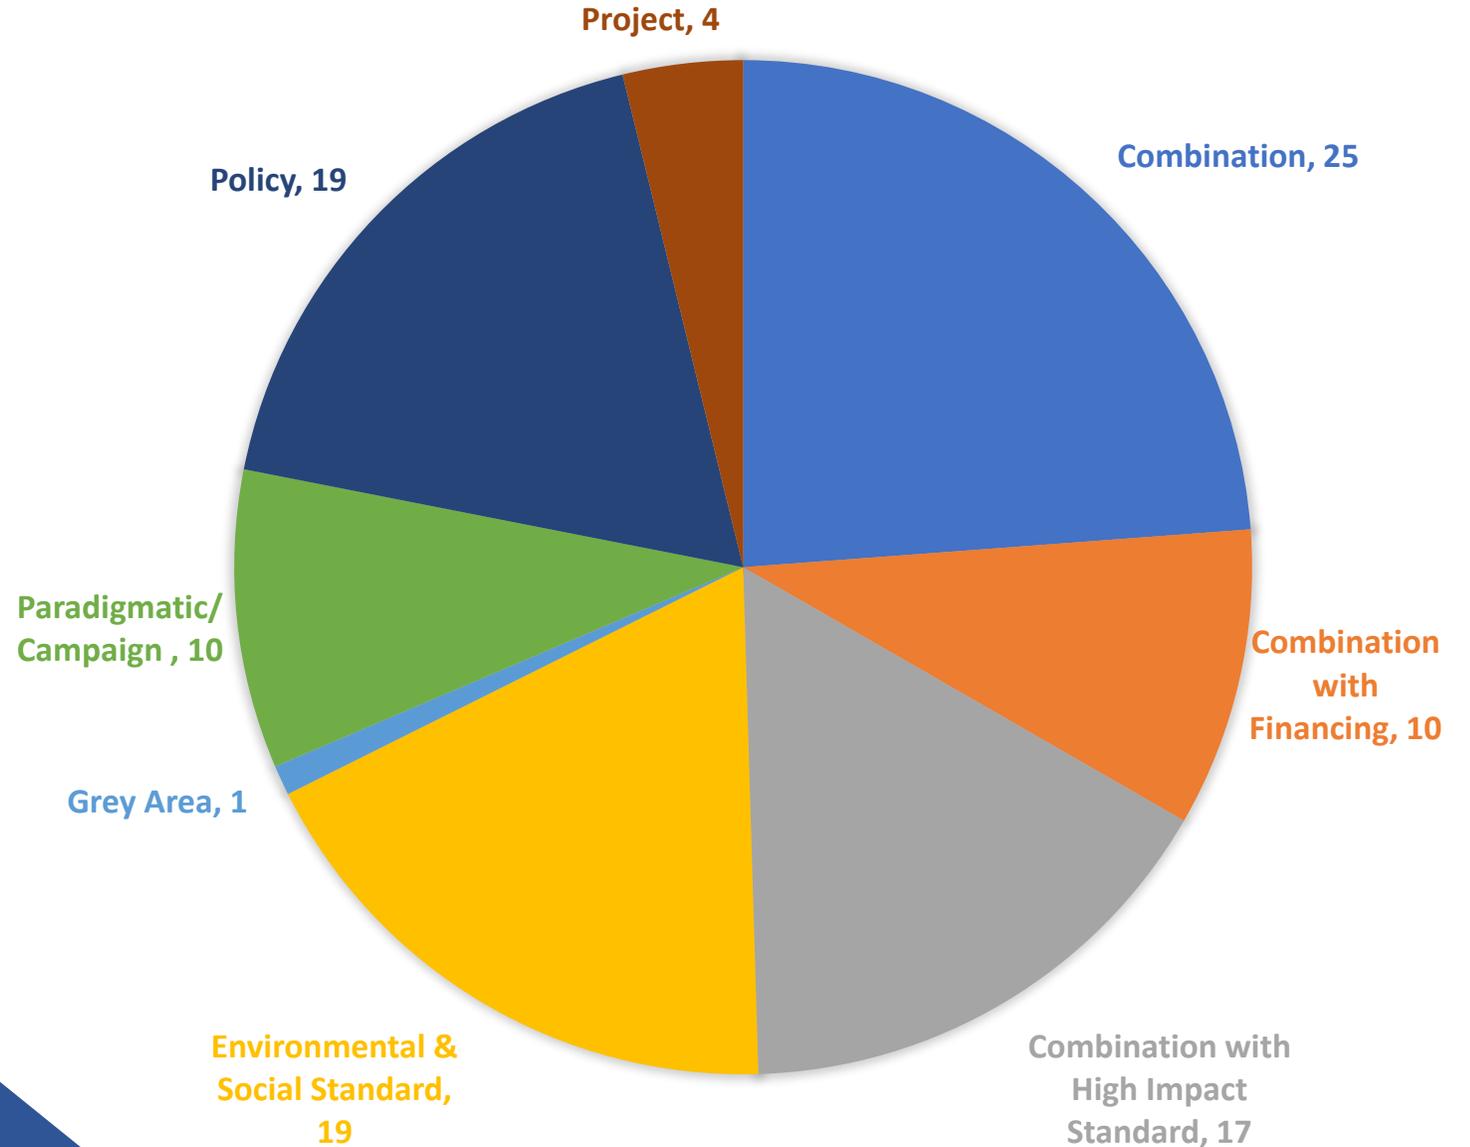

Business/Industry Representatives dominate the decision making bodies of mapped MSIs

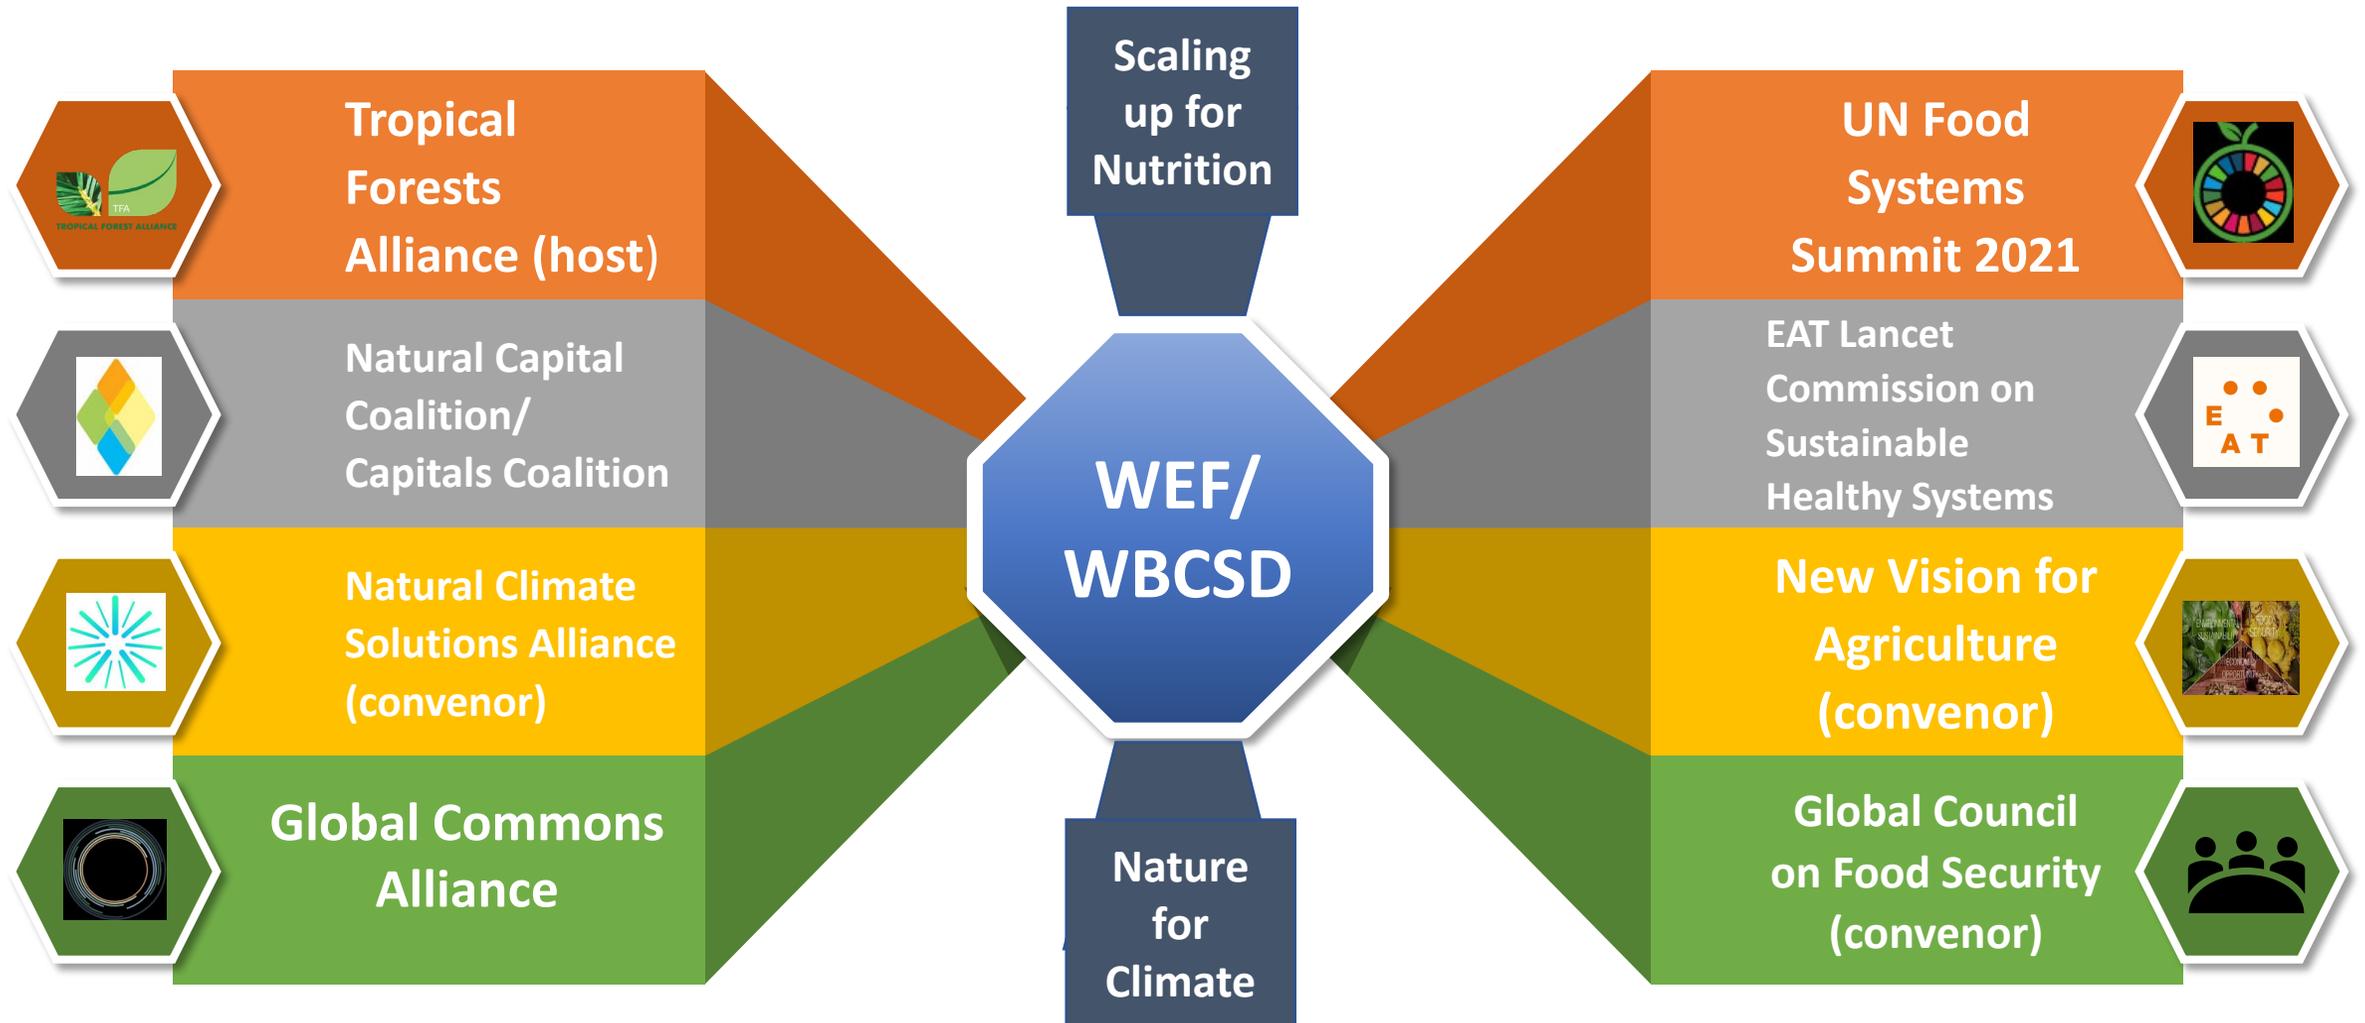

More than one-third of the mapped MSIs combine multiple orientations

New category: Paradigmatic/Campaign

TYPOLOGIES OF MSIS (FREQUENCY/COUNT)

Accelerating nexus of market-based solutions/ideas: “Nature-positive”-Food Systems-Planetary Boundaries-Planetary Health Diet-Nutrition

They claim to do the function of Public Institutions – set the agenda and...

they offer technical assistance to states and public institutions

they monitor and research

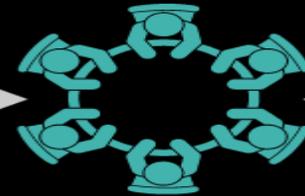

they set standards

they implement policies

but they use both public and private funding

MSIs address real issues but give wrong answers, always proposing market solutions

Main Funders of MSIs

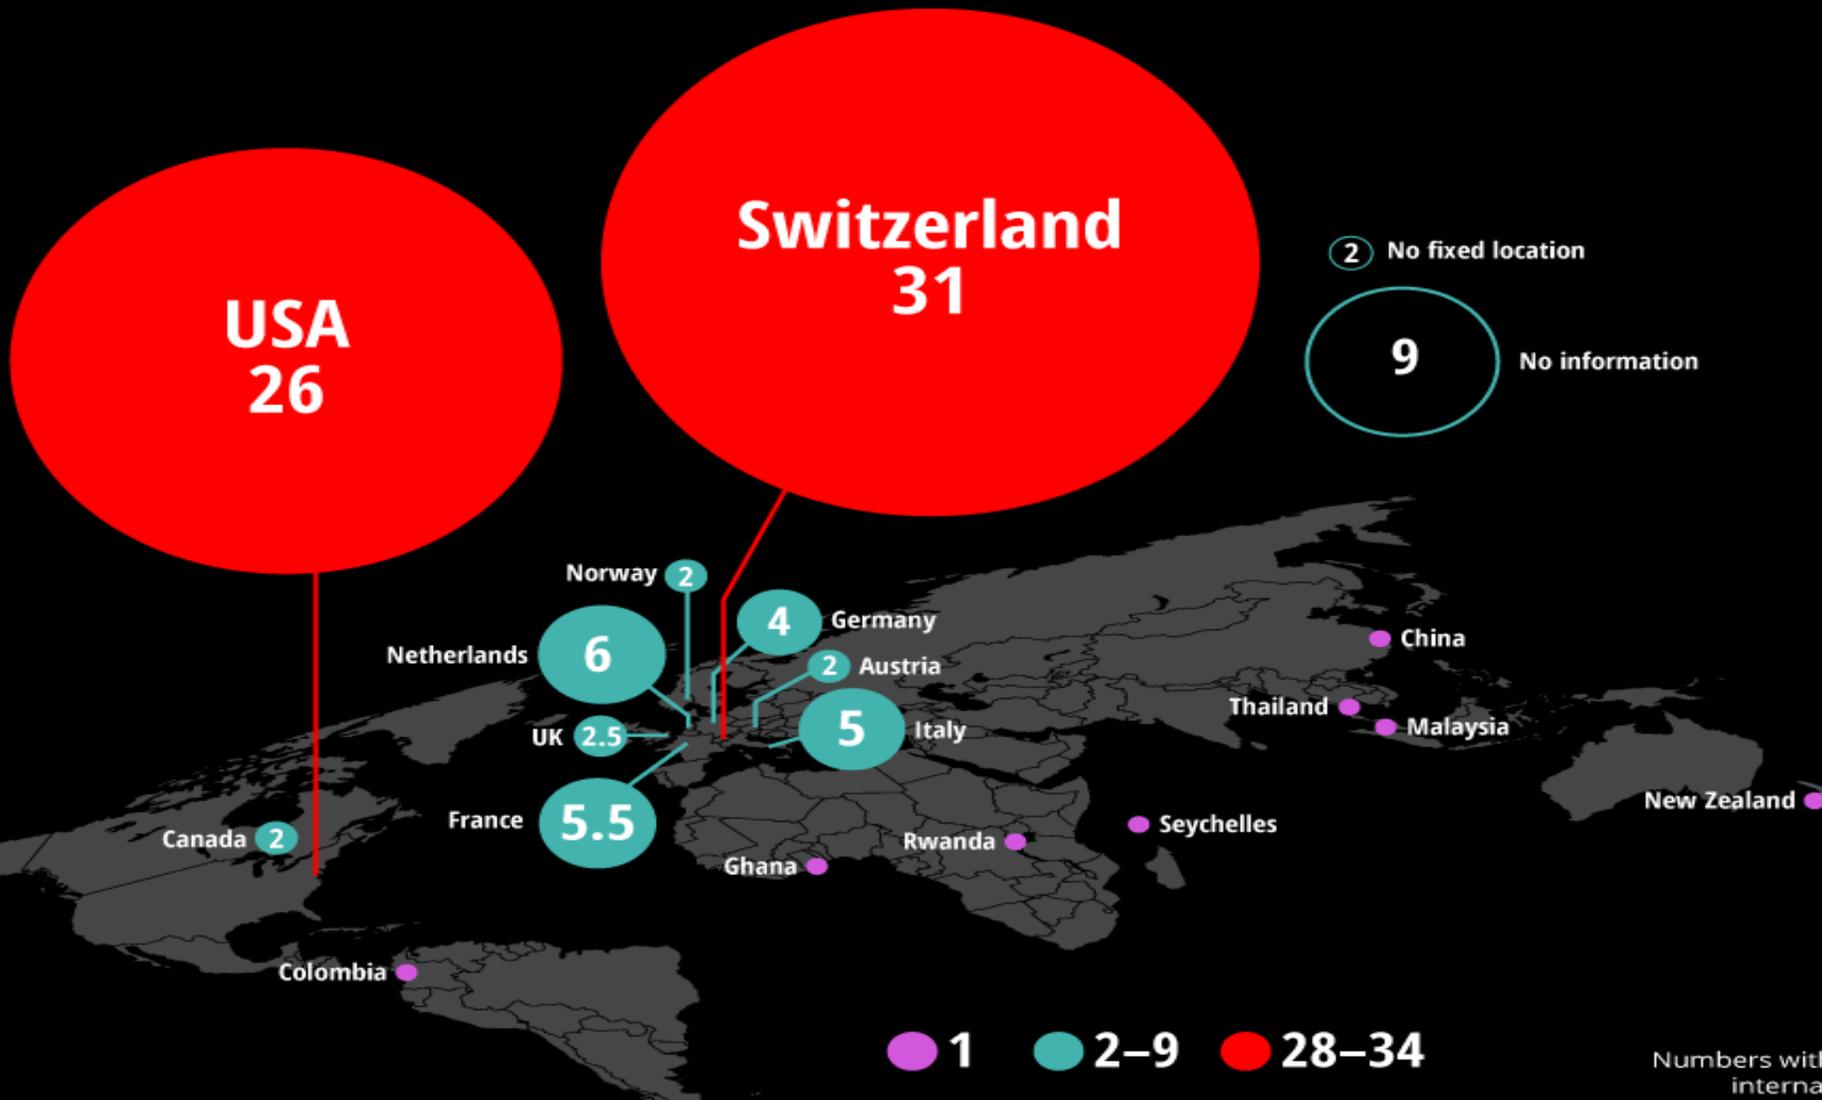

Bill & Melinda Gates Foundation

MAPPING MSIs

4 out of 10 mechanisms are located either in **Geneva** and/or **Washington DC**, where the World Economic Forum, UN system organizations, and the World Bank are hosted. Furthermore, a whopping majority of the mechanisms are located in the global North, with only 7 MSIs/MSMs/MSGs headquartered in the global South.
